

The Learning Academy is a FREE tutoring program open to all Burlington County students in kindergarten through senior year of high school who are facing academic difficulties or challenges.

Each student who attends this program works one-on-one with his or her tutor to develop an individualized plan that addresses the areas of academic difficulty to achieve specific academic goals. Parents are encouraged to be part of this planning process.

**Questions?**

Please feel free to call us at  
609-845-4420 or 609-845-4421.

To speak with a Learning Academy teacher, simply call 609-845-4420 or 609-845-4421 between the hours of 3 pm and 8 pm, Tuesday through Thursday.

You may also leave a message after hours and a tutor will return your call during program hours to schedule an initial appointment.

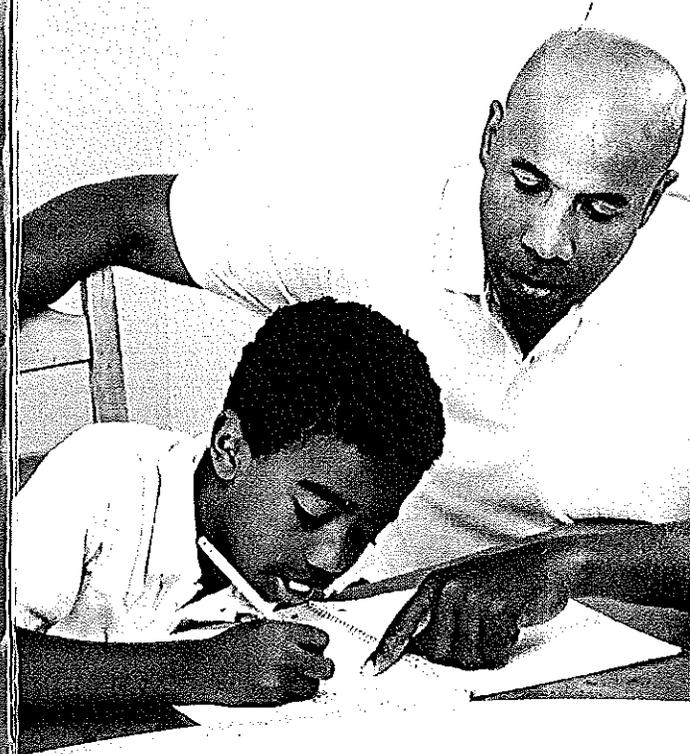

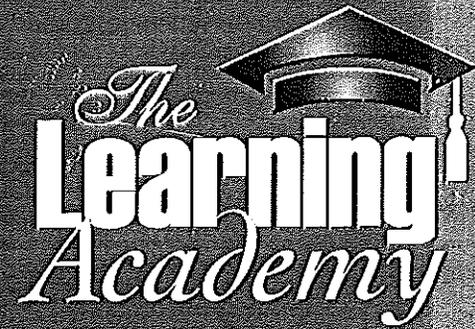

The Learning Academy program is provided at two locations for your convenience:

The Kennedy Center  
429 JFK Way, Willingboro, NJ 08046  
609-845-4420

Browns Mills Library  
16 Broadway  
Browns Mills, NJ 08015  
609-845-4421

Funded by United Way of Burlington County

Tutoring Program  
for Burlington County  
K-12 Students**

# Welcome to The Learning Academy!

## Helping Students Overcome Learning Challenges

Not all students learn at the same pace. While some may have no trouble learning their multiplication tables or sounding out new words, others might still struggle with math or reading skills even after reviewing the material several times.

Recognizing that each student has individual needs and challenges, The Learning Academy provides one-on-one tutoring services to help students address and overcome their individual learning difficulties. These tutoring sessions are provided free to any student, kindergarten through grade 12, in Burlington County.

Each student who attends the program works with his or her tutor to develop an individualized plan that addresses the areas of academic difficulty and sets specific academic goals.

## How the Program Works

After an assessment of the individual student's learning style, he or she is matched with a tutor based on the student's needs and the tutor's area of expertise. Once the student and tutor are matched, one-on-one learning sessions are scheduled in either 30-minute or 60-minute increments.

## Tutoring Sessions Conducted by Education Professionals

All tutoring sessions are conducted by teachers who have earned a bachelor's degree from an accredited college or university. Additionally, all tutors are formally trained for The Learning Academy's program.

## Learning Academy Goals and Program Highlights

At The Learning Academy, our main goals are to increase students' academic skills, improve their self-esteem and self-confidence levels, and better their overall attitude toward school and learning.

Recognizing the influence that parents have with their children, we can also help teach parents how to more effectively support and assist their children in study and homework skills.

During the course of each student's program, our tutors communicate with each child's teacher(s) as often as possible. This helps keep the teacher(s) informed on the student's progress, as well as any lingering challenges that still need to be addressed.

Additionally, The Learning Academy hosts monthly Family Reading Nights and Family Book Discussion Nights for families with young children to help get children excited about reading and learning. Here, both parents and children can participate and learn together. Monthly parent seminars are held to help parents work with their children academically, creating an effective and efficient support system for both parties involved.
